# About Us

**SUPERMOSS**  
*Santa Barbara, California*

**SuperMoss has its roots in a family company that is more than 30 years old.**

Today, SuperMoss distributes worldwide from three shipping locations in Santa Paula, California; Reading, Pennsylvania; and Thomaston, Georgia. The company is still family owned and operated, running the same as it has been since the 1980's.

**Our company focuses on delivering the highest quality garden and botanical products.**

We take special care to work with the finest materials and spend the time sieving, washing, and cleaning our products so that it is 100% usable for our designers and customers. We pride ourselves on the care we put into our mosses, cleaning and preserving them to ensure consistent, long-lasting beauty.

**From mosses to hanging baskets to soils and even iron work, SuperMoss has grown by leaps and bounds.**

Our newest products illustrate our dedication to product development, quality and continuous improvement. Our hope is simple: That we can do great business by providing an excellent product line and impeccable service to our customers.

**SuperMoss is always mindful of our planet and our customers;**

SuperMoss is GRAS, non-toxic and sustainably procured. We take great care to partner only with companies that make environmental responsibility a priority. Furthermore, we are a 1% For The Planet member, which means we donate 1% of company sales.

# Packaging 101

**SuperMoss offers a wide variety of sizes for all different kinds of stores.**

We offer header bags, display bags, display boxes, and bulk cases.

We sell each moss in the following sizes:

**12** SuperMoss case packs are easy to find for each item. The number inside each lavender circle next to the price refers to the quantity packed per case or "case pack."

Preserved moss lasts longer & prevents discoloring from soil!

**The Perfect Finishing Touch!**  
SuperMoss Sheet Moss gives a fresh, natural look to any plant which is why it has become one of our best sellers. Our Sheet Moss is cleaned to remove any dirt or extraneous materials. It is soft and easy to use. Simply pull it apart according to your arrangement's needs and tuck tightly around the base of the plant.

**A One-of-a-Kind Product!**  
Sheet Moss is a very classy finish to centerpieces, and not only does it look great, but it also helps retain soil moisture for your plant's health. Brilliant color, ultra-clean & easy to work with... it is clear why Sheet Moss is our best selling moss!  
Available in SuperMoss retail packaging or in bulk quantities.

Soft, Rounded, and Natural Clumps!  
SuperMoss Mood Moss® is similar to sheet moss in its soft, lush, and natural touch. It distinguishes itself by having more full features. Mood Moss looks magnificent on display because of its elegantly rounded features. Its shape and contour give it a uniquely natural presence, which pairs brilliantly with orchids.

Sizes & Item Numbers

Our Most Challenging Moss to Use!

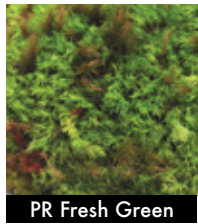

Royal Pool Moss® is a larger and more challenging moss to use than Mood Moss. With its naturally expressive colors, this moss adds an elegant quality anywhere you choose.

An Unrivalled Soil Amendment

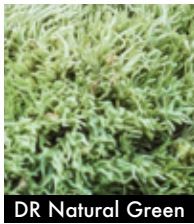

Sphagnum provides water to the roots according to the plant's needs, while allowing for optimum oxygenation so that the roots can uptake vital micronutrients. It makes for an excellent soil conditioner or top layer on potted plants like Orchids! Use Nursery Sphagnum when transplanting, aerating soil, conditioning, or just dressing up any potted plant!

Larger Massive Clumps Add a Bold Look!  
SuperMoss Royal Pool Moss® is characterized by its long vibrant green waves that contrast against its speckled brown bristles. It looks great displayed by itself because of its unique look and natural form. It has large and stylish tufts that give the product its lovely lavish features.

Colors

Perfect for Living Walls and Wreaths!

SuperMoss Orchid and Nursery Sphagnum Moss is a premium grade, long fiber, and long-lasting sphagnum. Its long fibers and superior water retention properties make it ideal for lining hanging baskets and using as soil cover for potted plants. Sphagnum helps you take the guesswork out of watering your garden plants by absorbing up to 18 times its weight in water.

**Our Most Versatile Moss!**  
SuperMoss Forest Moss is ideal for lining baskets, window boxes, and wire baskets. It comes in large, flat sheets that have plump and long bristles to keep the soil inside. The cohesive and hairy fibers are durable to withstand repeated waterings and keep that natural look alive in your garden. Forest Moss is perfect for a more grassy moss look around plant bases and above soil. Like all of our SuperMosses, it is easy to use and the perfect finishing touch to any floral creation.

Grows Healthier Plants!

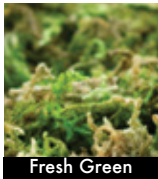

Mountain Moss helps plants grow healthier by allowing the roots to access more oxygen, which is crucial in their uptake of essential micro and macronutrients. Use Mountain Moss as a liner in hanging baskets to reduce moisture loss or dress the soil around the base of plants for a natural touch. A hydrated bale will expand up to 5 times its volume.

Wonderful Accent to Any Space!

Branched Lichen makes a great off-season fireplace décor used as an accent alongside firewood. Lichen has natural and unique variations in size and texture to create natural beauty only found in nature. Our product is long-lasting and may be stored and re-used.

Colors

Fresh Green

**A Shorter Fiber Green Sphagnum**  
SuperMoss Mountain Moss is a green sphagnum moss found at the crests of mountains. It is an excellent soil conditioner in that it helps plants retain moisture and from being over-watered. Mountain Moss also adds natural organic matter to soils that promotes the activity of healthy microorganisms.

Top Dress and Plants Improve Soil Quality with Soil Amendments!

Introducing our newest line of horticultural soil amendments. Choose from Lava Rock, Pumice, and Activated Charcoal. Overwatering your plants? Try adding some pumice in your soil mix to aid with drainage. If you have a planter without a drainage hole, Lava Rocks can be placed at the bottom to prevent your plant from getting root rot. And last but not least, Activated Charcoal eliminates bacteria and smelly odors in your potting soil.

SuperMoss Fire Glass completes your backyard remodel!

Our fire glass comes in 5 different colors to match outdoor decor, season, and environment. It is tempered glass that can withstand the heat from propane and natural gas fireplaces. It looks great with all styles of outdoor furniture and modern architectural styles, while still complimenting fashionable remodels in older homes.

BENEFICIAL BAT HOUSE			
Walnut Stain 15.5"W 23"H 8"D	1	56200	

**A single little brown bat can eat over 1,200 garden pests, flies, & mosquitos per hour!**  
Bats are nocturnal mammals with a large appetite for the bugs that destroy our gardens and bother us in the evenings. Having bats around allows you to rely less on chemical sprays and pesticides. In addition to pest control, bats are also important pollinators. A wide array of plants rely on bat populations. A bat house is a great way to embrace this wonderfully beneficial species that humans rarely see but live right in our backyards!

NEW ITEM!

Ideal for Succulents, Mosses, and Grasses!  
The SuperMoss Jade & Amber Plantable Birdhouses are a cute way to plant everything from succulents to mosses to grasses. It has a small container on top with a plastic liner to keep the soil and water out of the birdhouse. The Amber features a functioning birdhouse with a side clean-out door. They are great for floral projects, crafting, or gardening planters!

**Beneficial for Home & Organic Gardening!**  
Your Pollinators and Beneficial Bugs need a home in your garden! Our BB Houses are a fun and practical addition to your home garden. They are perfect for kids to learn about organic farming, predatory insects, and pollinators. The houses harbor beneficial bugs that keep insects such as aphids off our plants. Pollinators use the houses to develop from egg to adulthood, where they can facilitate the reproduction of flowering plants! Help host these essential species right in your garden!

## What's all the Buzz about?

Bug houses host pollinators and beneficial bugs!

Set your house up in a sheltered area of your garden or away from the prevailing wind.

Solitary bees love sun to help them get out and about on a cold day. Your house will become fully occupied quicker if it is located close to an existing insect hotspot: a hedge, bank of nectar-rich flowers or a pond, for example.

Ask how to get a fence display for your store!

**Solitary Bees** are typically stingless and excellent pollinators. Since females can't depend on a hive for nesting, they must build one from hollow logs, rarely found in our gardens. Solitary bee populations are in serious decline and desperately need our help!

**Ladybugs** are cute, happy and friendly beetles that spend the winter sleeping in woodchips. By the spring and summer, they are ready to enter the garden and eat aphids!

**Lacewings** are welcomed in the garden because of their voracious appetite for plant-eating pests. They nest between pieces of wood and devour aphids, leafhoppers, whiteflies, mites and caterpillars.

**Butterflies** are important pollinators that love the color red! They slip through the slits to hibernate from winter until spring, when they are warm enough to fly again.

**Earwigs** are beneficial protectors of fruit trees and vegetable gardens. They are principally nocturnal animals with a taste for aphids and plant lice.

LADYBUG HOUSE

Mixed Case

6

56109

The lady bugs are active in the day and will leave the house in search of food. Select a visible yet protected location in your garden to mount your ladybug house. Look for an area where you can mount it off the ground but still nearby your plants. Ideally, choose a South-facing location that will get at least 4 hours of sunlight per day. Fill the inside of your Lady Bug House with natural Aspen Excelsior or wood shavings. Source ladybugs from your local garden center or online.

 **KoKedama

Orchid Potting Mix  
Natural Jute Twine  
Hanging Chain

**Kokedama** literally translates to “moss ball” in Japanese! It is a tradition in Japanese gardening that wraps a plant’s root ball in moss for it to be hung or placed on a dish. Kokedamas look stunning with orchids, bromeliads, succulents, Asian plants, herbs and vines. Place them indoors or outdoors, on kitchen counters or bathroom counters, on coffee tables or dining room tables! Our Kokedama Kit includes everything but the plant, so all you have to do is choose!

**Making a Staghorn Fern is easy to do!**

Staghorn ferns are easy to care for and have a unique modern look that can be used in many spaces. They are epiphyte, which means they are air plants. Staghorn Ferns will gladly grow on a wall mount, which lets air circulate around them. These ferns are called Staghorn ferns since they resemble the antlers of deer or moose.

Explore All the Exciting and Fun Ways to Make Your Ball Planter Amazing! Our Woven Hanging Ball Planter comes in 12, 14, and 18" inch sizes so you can choose how big to go! They look great with vines, herbs, or flowers that make it EXPLODE with color! They also make great kissing balls and look majestic done with Christmas lights.

### What is a KOKEDAMA?

...We are glad you asked! The word 'Kokedama' literally translates to "Moss Ball" in Japanese! It is a tradition in Japanese Gardening that wraps a plant's root ball by moss for it to be hung or mounted in a dish. They look great planted with anything from Orchids to Succulents to Herbs & Vines!

Professional growers are heralding coconut soil as the #1 choice in gardening for its numerous inherent qualities. SuperMoss soils are a superior eco-friendly alternative to peat moss. It absorbs 33% more water to prevent root rot and take any guesswork out of watering. By being pH neutral and improving aeration, SuperMoss soil is ideal for all plants!

2. Hydrate each with 2.5 gal of water

3. Mix until homogeneous

4. Secure plant firmly in soil

Expands to 10 times its volume  
These bales are compressed for convenience,  
simply hydrate and use as your planting medium.

Reindeer Moss Walls

are a form of Biophilic Design that strives to incorporate elements from nature into artwork, interior design, and architecture. Benefits range from reduced stress to enhanced creativity to clarity of thought and general wellbeing at home and at work. Reindeer Moss Walls bring a sense of fashion, personality, and color to the scene by achieving extraordinary colors juxtaposed with natural texture.

**SuperMoss® Wall Frames ready to make any size space Unique!**

Hang on the wall as an elegant piece of natural art that captivates any space or use on a table for an effortless tablescape design.

Biophilic design relies on the art of using natural preserved plants, mosses, lichens, and wood branches to bring elements of nature indoors. This art form is increasingly popular in architecture & interior design, where its primary goal is to create a serene green space to live and work. Moss Walls not only look very impressive indoors, but they also provide natural sound absorption, which makes them a great option for loud environments like restaurants, offices, or living rooms.

Sizes & Item

Royal Pool Moss 24" x 24"	1	20313	
Royal Pool Moss 24" x 36"	1	20314	
Royal Pool Moss 48" x 16"	1	20315	

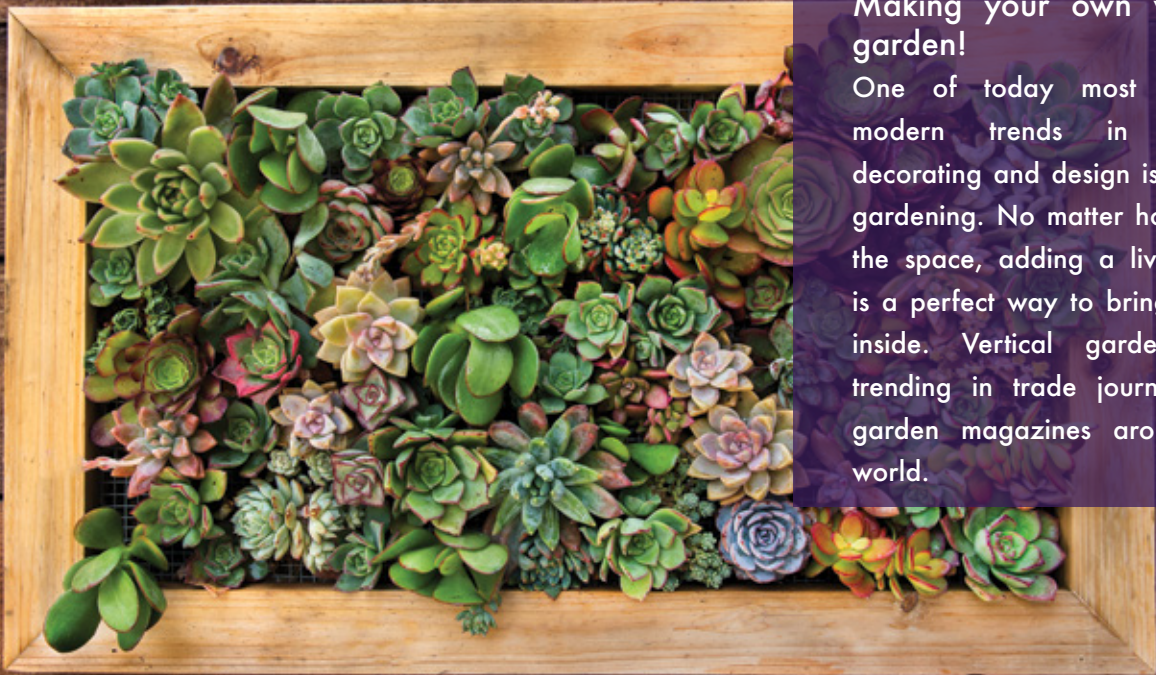

SuperMoss® Frames can be as simple or as intricate as you make it!

Royal Pool Moss Frames are excellent examples of biophilic design, which can reduce stress, enhance creativity, clarify thought, and improve our overall wellbeing at home and at work!

### Making your own vertical garden!

One of today's most popular modern trends in interior decorating and design is vertical gardening. No matter how small the space, adding a living wall is a perfect way to bring nature inside. Vertical gardening is trending in trade journals and garden magazines around the world.

### Make your own Succulent Wreath!

You can plant directly into the sphagnum moss wreath without using any soil because the moss is highly absorbent and retains all the moisture, air, and nutrients your plants need to thrive. Our wreaths are durable and will last multiple seasons. Each wreath comes with planting instructions and care sheet. For indoor wreaths, try decorating with dried flowers and natural elements by simply poking the stems directly into the moss.

### Keeps Soil Moist and Roots from Drying

They are made from a high-quality mesh backing that is durable and easy to cut into any shape. The mesh backing won't inhibit watering your plant, it actually helps keep the soil moist. The moss is securely adhered to the backing, making for a re-useable and long-lasting product. The mat can be applied to any flowerpot directly out of its packaging. No tools required! There's no limit to what you can do with your InstantGreen®!

InstantGreen Soil Topper

### Easy to Use!

SuperMoss Instant Green Soil Toppers are made from the same high quality green Mountain Moss as the rest of our creative products. The Soil Topper is a versatile product that comes in a wide variety of sizes. It is specifically designed for flowerpots with a pre-cut slit down the side and room for the base of the plant.

SuperMoss Sisal is the natural round fiber from the leaves of the Agave succulent. It has a smooth and soft feel, which makes it perfect for either floral or craft uses. Sisal comes in many vibrant colors, so can be used to dress flowerpots and potted plants or as a filler for gift boxes or baskets. Sisal is popularly used by interior decorators and designers because it can be beautifully paired to match flower color, home décor, or the season. Available in attractive retail packaging or in bulk quantities

Great in Gift Baskets or Around Plants  
It comes in a wide variety of colors, so it is easy to pair with flower color or home & garden décor. Wood Moss is also an exciting liner for presents, gift baskets, and picnic baskets. Available in SuperMoss retail packaging or in bulk quantities.

### Choose Your Color!

SuperMoss Raffia is the refined fiber from the Raffia Palm that comes in long, flat strands. The strands are thin and soft to the touch, which makes them great for both floral and craft uses. SuperMoss Raffia comes in a very wide variety of colors (almost any!). Its many colors can be mixed and matched to fit the season or occasion. Raffia makes for a perfect gift box or basket filler while adding a festive touch. Available in attractive retail packaging or in bulk quantities.

### Sizes & Item Numbers

Moss Roll 2.5" x 36"	12	28050	
----------------------	----	-------	--

SuperMoss Instant Green Moss Roll is made from the same high quality green Mountain Moss as the rest of our creative products. The Moss Ribbon is a versatile product that can be used in arts & crafts projects, as flowerpot soil toppers, basket liners, and even as patio placemats.

Elevate your floral designs with a flutter of natural beauty. Whether enhancing a garden, a floral arrangement, or an indoor plant setting, SuperMoss Monarch Moss Picks introduce a whimsical touch of nature that captivates the senses.

What the Growers Use!

SuperMoss Orchid Bark is natural White Fir tree bark. Its size and density makes it an ideal potting medium for orchids. It allows for great oxygenation and drainage of water so that the orchid's roots have constant access to both water and oxygen. This mimics an orchid's natural environment and helps them grow to their full potential. Available in attractive retail packaging or in bulk quantities.

**Bamboo for Growers, Gardeners, and Even Interior Decorators!**

SuperMoss Bamboo Sticks are hand-straightened bamboo shoots that come in a wide variety of designer colors, sizes, and diameters. They are of the finest quality bamboo and will not splinter or cracks. Bamboo measures approx. 1/2 inch in diameter.

**Keep 'em Up Straight!**

Our natural shoots make for great plant supports and are available in bulk for nurseries and garden centers. Our designer colored shoots are excellent decorative elements for vases, centerpieces, and floral displays. They are also used for interior design purposes such as natural curtain rods.
