

Succulent Frames

Everything you need to start your next creative project in the garden or indoors

SuperMoss Succulent Frames are ideal for succulents as they are stuffed with our high-quality, blonde sphagnum moss. Plant directly into the frame without using soil as the moss is highly absorbent and retains all the moisture, air, and nutrients your plants need to grow healthily. Our succulent frames are durable and will last multiple seasons. Each frame comes with planting instructions and care sheet.
